

SHOT E-Newsflash 28 July 2023

- Register now for the SHOT 2023 Annual Meeting

SHOT 2023 Annual Meeting Long Beach 26-29 October

Secretary's Note

In three months time, the SHOT 2023 Annual Meeting takes place in Long Beach (California, US). The Program Committee has built an inspiring program with research sessions, several presidential roundtables, and an exciting plenary opening. Our Special Interest Groups are organizing lunches, meetings, and workshops for members to meet and share ideas. The SHOT Awards Event offers the opportunity to meet the winners of the 2023 Awards and Fellowships. SHOT's leaders also invite everyone to attend the 'Community Meeting: Creating SHOT's Future' to learn about SHOT's recent activities and discuss the society's important future plans.

To enable remote access, a number of sessions and events will be streamed live. We are still learning here, so make sure to share your online meeting experiences with us during and after the meeting.

We are pleased to let you know that it is now possible to register for the Long Beach meeting. [You can find the online registration form here.](#)

In case you have any questions don't hesitate to contact us.

Jan Korsten
SHOT Secretary

Conference website

All annual meeting information will be posted on [SHOT's annual meeting website](#). There you will find a link to the online registration form, the conference program, a link to the conference hotel in Long Beach, information on available (travel) grants, and answers to frequently asked questions. Please regularly check the website for updates.

Conference registration

We are pleased to announce that you can now register for the SHOT annual meeting!

[Go to the online registration form.](#)

SHOT and SHOT-NSF Travel Grants

The deadline for applications for SHOT Travel Grants and SHOT-NSF Travel Grants has passed. It is not possible anymore to submit applications and endorsements. The SHOT Travel Grant Committee will review all applications. We expect to inform all applicants mid-August on the results.

REDI Travel Grants

SHOT is offering a few Broadening Community travel grants, with applications open to participants at the 2023 annual meeting. Part of a broader effort to combat systemic and epistemic racism at SHOT, this award is intended to facilitate the growth of a more inclusive, intersectional scholarly

community. Awards support attendance by presenters from minoritized groups, with a special focus on early career scholars from groups underrepresented among annual meeting attendees. Applicants may present accepted papers on any topic, period, or region. Award amounts will depend on distance travelled, and may combined with other SHOT travel grants to defray the cost of registration, transit, and lodging for the 2023 Annual meeting.

The deadline for applications is **1 August 2023**

[Go to the online REDI Travel Grant application form.](#)

Meet our Special Interest Groups

Since SHOT was founded in 1958, members have formed special interest groups (SIGs) for the purpose of bringing together scholars and professionals with interests in specific fields of the history of technology. On the [SHOT website](#) you can find more information about our SIGs. We invite you to explore that information and take the opportunity to meet the SIGs of your interest at our annual meeting during one of their lunchtime meetings or Sunday morning workshops.

First time attendees

Participants that are attending their first SHOT annual meeting are cordially invited to meet the SHOT Officers at a breakfast meeting on Friday morning. For more information see the online registration form for the Long Beach Meeting. [Go to the online registration form.](#)
